Continuation of 2. NOTE: The rejections of the Final Office action stand and the new amendments will not be entered because they raise new issues that require further consideration. Applicant's response to the rejections for Statutory Type Douple Patenting under 35 U.S.C. 101 and for Non-Statutory Obvious-type Double Patenting was that the conflicting claims in the co-pending application 09/623,543 had been cancelled and this is found to be correct by the examiner. However, Applicants added new claims 35-48 that read on the exact scope as prior to the cancellation of the conflicting claims and has simply increased the scope of the new claims by adding the additional compound for which the instantly claimed product is intended to bond, i.e., the blood proteins. Thus, the amendments do not place the application in shape for allowance.
